

KALCINOL® descaler

With acidic reaction (corrosion remover for aluminium)

Limescale and rust remover for professional use in industrial- and service companies.

Suitable for decalcification and as a rust remover where other means are not sufficient.

ADVANTAGES:

- Powerful descaler with 35% acid
- Also works as a corrosion remover on aluminium
- Professional product for use in industry and damage service
- Super effective for quick cleaning on larger surfaces with Nito foam sprayer
- Cleans and descales in one process

DOSAGE:

Thick layers of lime, rust and corrosion:
Undiluted (pH < 1)

Light limescale: 5-10% (pH approx. 1-1.5)

Daily cleaning: 2% (pH approx. 1.7)

NOTE!

**Do not mix with hypochlorite
(e.g. bleach essence or chlorine)
Can attack terrazzo, marble and enamel.**

ECOLABEL:

SAFETY:

USER

INSTRUCTIONS:

Apply with a brush,
cloth or sponge.

Reaction time 1-10 min. Repeated washings may
be necessary. Rinse thoroughly with water.

Apply through Nito foam sprayer.

Reaction time 1-10 min. Dirty surfaces are
processed manually.

Rinse off with a soft water jet.

ATTENTION! Joints around tiles and bricks etc.
should be thoroughly watered before
deacidification.

ATTENTION! Items and tools that come into
contact with food, meat and meat products must
be rinsed with clean water.
